BASIC WARRANTY INSPECTION

CONDITION

Coating of film on shock body or piston rod. A completely normal occurrence, not defective.

ACTION

NO REPLACEMENT NECESSARY.

Signs of abuse, improper installation, collision damage or modification. Also, shocks used for racing or in race cars.

NO REPLACEMENT POSSIBLE — WARRANTY HAS BEEN INVALIDATED.

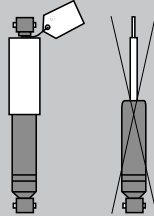

Unbroken piston rod is separated from shock body.

TAG & RETURN FOR IMMEDIATE REPLACEMENT

RETURN PROCEDURES:

When a shock has been determined defective, or if more sophisticated testing seems necessary, tag and return the shock to Bilstein for warranty evaluation.

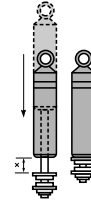

FOR PROMPT REPLACEMENT OR EVALUATION, YOU MUST INCLUDE THE FOLLOWING:

1. All originally supplied mounting parts.
2. A copy of customer's proof of purchase.
3. A warranty claim tag, detailing customer's name, address, phone number and nature of defect or complaint. (These cards are readily available from Bilstein or our distributors.)

CONDITION

Compression depth seems off — check by fully compressing shock and comparing distance "x" to that of a new shock, same part number. If variance between old and new shock exceeds $\frac{3}{16}$ " (10mm), old shock is defective.

ACTION

TAG & RETURN FOR IMMEDIATE REPLACEMENT.

EXCEPTION: Strut cartridges must compress to their internal bumpstop.

Clicking noise, plus pronounced endplay — when piston rod is held downwards, compressed halfway, then quickly moved up and down an inch or so in each direction.

TAG & RETURN FOR IMMEDIATE REPLACEMENT.

Bubbling noises inside — when shock is inverted, compressed and released. (Oil and gas have mixed.)

TAG & RETURN FOR IMMEDIATE REPLACEMENT.

ALL SHOCKS BACKED BY BILSTEIN FOR LIFE.

ThyssenKrupp Bilstein of America warrants its gas pressure shock absorber against defects in workmanship and materials for as long as you, the original purchaser, own your car.

If at any time after purchase or installation, the shock malfunctions and Bilstein determines it to be defective, we will either replace it or repair it.

There are only a few specific exceptions to this warranty. They include: 1) commercial vehicles 2) original equipment shock absorbers — which are warranted by the original equipment manufacturer, and 3) improper installation, 4) racing, driving competition or off-road use, and 5) use on modified or other than Bilstein-recommended vehicles.

Bilstein liability for a defective shock absorber is limited to replacement of shock with a new or reconditioned Bilstein shock absorber. Rubber mounting hardware and labor charges are not covered by the warranty. Note: Other exclusions may or may not apply in certain states or rare circumstances. Proof of purchase is required to process warranty.
